Catalogue of Mental Health Measures

NEWS & UPDATES

What's new on the Catalogue?

We recently updated the Catalogue with:

New sweeps

In the **_Lothian Birth Cohort 1936_** study page, we reviewed and added two new sweeps: a second Covid-19 sweep & the sixth main sweep collected in their fascinating cohort of participants first surveyed in 1947 as schoolchildren in Scotland.

LBC 1936

New information page

We created a page dedicated to some of the **_common measures of personality and temperament_**, where we highlight and describe these measures, and link to which studies use them on the Catalogue.

New feature

We have implemented a new **_API specification_** on the Catalogue to enable its interoperability with other platforms.

Landscaping International Longitudinal Datasets

Landscaping International Longitudinal Datasets
FULL REPORT

JULY 2023
With contributions from the Institute of Psychiatry, Psychology and Neuroscience at King's College London, MQ Mental Health Research and the Open Data Institute

Our team & partners released the full report on the worldwide longitudinal dataset landscape earlier this month!

Read more here: **www.landscaping-longitudinal-research.com/what-we-found.**

Upcoming Events

AUTUMN 2023
Keep an eye out for the next **MQ-DATAMIND Data Science Meeting**, which will take place in October 2023 and be chaired by Louise.

MQ Mental health research

Team updates

Daniel Yu has been a core member of the Catalogue team during his placement year, 2022-2023. We are thrilled he will be staying with us for the summer, and will continue to provide his invaluable input, before he returns to University of Bath to complete his degree!

Congratulations to our wonderful **Barbara Maughan** for her promotion to Emeritus Professor earlier this year.

OUR CATALOGUE TEAM WISHES YOU A SPLENDID SUMMER!
